

New Horizons in Toxicity Prediction

The 2nd International Lhasa Symposium

15th – 16th September 2010

The Leeds Royal Armouries Museum

This exciting event will explore current and emerging initiatives and approaches in toxicity prediction, covering and comparing tools and techniques available today and taking a look into the future at new directions and challenges.

Of interest to scientists working within the chemicals, pharmaceutical and personal care industries, academia, regulatory bodies and government agencies; this event offers an excellent opportunity for networking and hearing from prestigious keynote speakers.

- Presentations from speakers working in the area of ADMET studies and representing commerce, academia and associated industry bodies.
- Plenary sessions presented by high profile speakers.
- Poster session and networking luncheon.
- Symposium Dinner hosted stylishly within Royal Armouries Hall.
